Foreign Market.

New York, July 22.—Commercial Advertiser's London financial cablesram says: The idleness on the stock exchange was pronounced today. Some houses began to support Kaffirs, but the movement collapsed and the finish was heavy. Stocks that are bought do not seem to be soing into strong hands. American stocks opened nervous, drooped until noon and then rallied slightly in sympathy with B. & O., which rose on talk of an increased dividend. New York came hestating, although a buyer of Atchison. The class was steady. Rio Tintos were % down at 43%, and copper ½ down to 452 7d & the ton.

Boston Wool Market.

Boston Wool Market.

Boston, July 22.—The past week has been a record one on salez of wool here, it being the best of any during the present rear. A number of the big corporations have been buyers, as well as a large number of smaller manufacturers. Frices are higher in several instances and all grades are on the upward tendency. Terflory wools are selling freely with considerable new wool being taken, as well as old. Prices are very strong. Fine staple territories, 50@52c; strictly fine, 50@52c; medium, 65%c.

SLUMP IN PROVISIONS

Trade, While Not Heavy, Was Almost Panicky.

BUYERS WERE BEARISH

As a Result Temper in the Pit and Prices Were Easily Influenced-General Liquidation, Which Set in to Some Extent Monday, Was Very Marked-There Was Vigorous Trading on the Part of the Professionals-Packers Appeared to Have Abandoned Their Pet Market.

Chicago, July 22.—There was marked variance between the slump in the provi-sion market today and the highly manip-ulated condition of September wheat that variance between the slump in the provision market today and the highly manipulated condition of September wheat that influenced sharp advances in all grains in the tace of bearlsh conditions. Trade in provisions, although not heavy, was almost panicky at times today. Hogs at the stock yards have been marketed much more freely of late, tempted by high prices. Today prices slumped to a figure 30 cents under last Friday's prices. Buyers were very bearlsh and as a result the temper in the provisions pit and prices were easily influenced. The outsider who took on a good load during the recent spurt has grown quite tired of the burden. General liquidation, which set in to some extent yesterday, was very marked today. There was vigorous trading on the part of the professionals. Packers seemed, to have abandoned their pet market until toward the close, when a little stuff was taken to stop the decline, September pork, which opend 10 to 15 cents lower at \$17.50/217.55. plunged down to \$17.25, and closed 50c lower at \$10.50. September land opened 7½ cents to 2½ cents down at \$10.51½ to \$10.72½; soid at \$10.50 and then broke to \$10.50, closing very weak, 22½ cents lower at \$10.50 closing very weak, 22½ cents lower at \$10.50. September ribs opened 7½ cents down at \$10.50 and then broke to \$10.50, closing very weak, 22½ cents lower, at \$10.50.

Wheat was very strong in spite of a perceptible early break influenced by good weather, heavy receipts and easy opening cables. Immediately upon the break a demand sprang up that frightened the shorts into covering as speedily as possible. Rains were predicted, statistics were bullish and the low grading of the wheat coming to hand were bullish incentives. Possibly as much as anything to put gimp into September wheat was the gossip that a leading packer. was taking control of that option. Trade was good and the close was strong and near top prices. July sold from 75½c to a net gain of %c at 77c. September opened ¼c to 14,44c lower, at 175c to 17% 610 to 18,400 to 18,400 to 18,400 to

Weather Bureau Crop Report.

Washington, July 22.—The Weather bureau summary of crop conditions says: The lower Missouri and upper Mississippi valleys, and lage regions have continued to suffer from excessive rains, which have also interrupted farm work in the Ohio valley and in portions of the middle Atlantic States and New England, Much injury to crops and other property has resulted from overflows in Iowa, Illinais, Missouri and Michigan. The temperature conditions as a whole have been favorable, although rather low in the Rocky mountain districts. The north Pacific coast States sustained considerable damage from high winds and the Dakotas and Minnesota from hall storms in scattered localities.

The corn crop has made splendid progress except in lowa and limited portions of Missouri and Illinois.

Rains have interfered with the harvesting of winter wheat, where unfinished in the extreme Northern districts, and also been unfavorable for threshing in the central valleys, while considerable wheat in shock in the lower Missouri valley has been damaged. Harvesting continues in California and has begun in Oregon, where wheat is filling nicely. The crop in both Oregon and Washington, however, has sustained considerable damage from recent high winds.

Spring wheat has advanced favorably in the principal spring wheat States, bit has sustained injury in scattered localities from hall storms.

Apple prospects are somewhat improved in Missouri, promise well in portions of Oklahoma. Kansas, Nebraska and Michigan: New York is less promising, but the outlook continues favorable in New England. Generally throughout the Ohio valley and middle Atlantic States the indications are for a very poor crop.
